on Cable Information Log (Form #763). The revised form #253, which will be ready for use within a month, designates the blue copy of the receipt as the customer's copy. Since reliating a cable numbers is not done in numerical order but in the same order as on the receipt form, the copy of the receipt form, the copy of the receipt form should be adequate and thus eliminate this operation of reliating.

- b. That eshie files maintained in Office be edded to the Records Control Schedulel prepared for GDCL. This will permit the bi-confully destruction of the code files without listing or checking individual documents (except Top Secret). The Office of Security has approved the bloc destruction of files without listing individual documents provided that a record of material destroyed is maintained which identifies the material with an item on the Records Control Schedule. This destruction can best be done by the Records Officer of CDCI.
- c. That the cable files be maintained as follows: one copy filed by post or station; one copy filed by last 3 digits of cable number. This will provide a 3-way access to the files as the Cable Receipt would furnish access by date of receipt.
